Order Total						

When filling out the form, please mark your quantities clearly. To calculate shipping charges, multiply each book's quantity by its weight then add the total weight of all books for the shipping weight. Once the total shipping weight is calculated, please refer to the Shipping Rate Table at the right to calculate the shipping charge.

All orders should use the retail rate, unless you are a bookstore or library. **Only Washington State residents need to add sales tax.** Note: Wholesale orders to bookstores and libraries *do not* add sales tax to the total.

When ordering Magazine issues, please indicate which issue number in the box below. For multiple quantities please specify. Example: for 5 copies of issue 10, write "#10 (5)".

Please make checks payable to StringTown Press.
